ULPHO collection

The ULPHO flowerpot collection is designed for enthusiasts of modern minimalism and clean, geometric forms. Its hallmark is the simple, cylindrical silhouette with gently rounded edges – ranging from low, wide models to tall, slender variants. The character of the collection is accentuated by the uniform, matte surface and carefully balanced proportions, which combine visual lightness with a sense of stability. Ulpho fits perfectly into orderly arrangements, both outdoors and indoors. The flowerpots do not dominate the space but complement it, serving as a subtle backdrop for plants and architecture. The wide range of forms allows for the creation of cohesive, contemporary compositions that introduce an atmosphere of calm, clarity, and refined simplicity.

EPOCCO collection

The Epocco flowerpot collection draws inspiration from ancient ceramic vessels and natural, raw textures. Its slender, rounded forms evoke the silhouette of classical amphorae, while the matte surfaces resemble the texture of hand-shaped clay – subtle, yet full of character. A distinguishing feature of the Epocco flowerpots is their double-bottom construction, which creates the appearance of a tall, elegant form while maintaining a shallower internal depth. This design offers both visual lightness and practical functionality, making them an ideal choice for modern interiors and relaxation areas. Their sculptural character and harmonious lines introduce a sense of calm, refined simplicity, and contemporary elegance to any space.

BOGE collection

The BOGE flowerpot features a unique form inspired by hand-shaped ceramics and the natural textures of stone. Its organic, rounded, and slightly asymmetrical silhouette lends the piece a natural, sculptural quality. The irregular rim flows seamlessly into the soft curves of the body, evoking the smooth contours of stones shaped by water. The surface is matte and subtly rough, with a visible texture reminiscent of raw concrete or natural stone, enhancing its sense of authenticity. Boge brings warmth and tranquillity to any space, harmonising beautifully with nature-inspired interiors as well as outdoor arrangements, where it serves as a subtle yet distinctive accent.

FOLKA collection

The FOLKA collection of pots blends the tradition of craftsmanship with contemporary design. The striking carvings and geometric patterns are inspired by Nordic tribal aesthetics, African sculptural traditions, and the Art Deco style. These distinctive designs infuse interiors and gardens with a unique atmosphere, seamlessly merging history with modernity. Perfect for minimalist and eclectic spaces, they embody artistic expression and exceptional character.

LATIA collection

The LATIA pot collection is a sophisticated combination of elegance and simplicity. Each pot in the collection has a unique shape, ranging from slender to wide, with square and oval forms. Together, they can form a consistent decoration for your home or garden. The characteristic features of this collection are the vertical grooves in the texture of the sides of the pots, symbolising the power of nature and the Earth.

TUBRA collection

The TUBRA pot series delights with how it alludes to classic Greek sculptures, which are well-known for their harmonious proportions and unquestionable elegance. The collection includes pots in many different shapes – from classic, wide forms to tall and slender pots. The horizontal lines decorating their surface resemble carefully sculpted details of antique columns, giving every model a unique form, which is impossible to achieve using other technologies.

MOLTA collection

The MOLTA pot series is a fine example of subtle interplay between smooth, oval shapes and more distinct forms, based on rectangles and squares. Each pot – with or without discreet supports – tells its own story. The subtly rounded edges and the smooth surface draw attention to their precise finish and casual elegance.

The MOLTA collection is a symphony that unites nature and craft, where every shape reflects minimalism, peace and balance – values which come highly appreciated in modern design.

MOLIO collection

The MOLIO collection embodies the essence of classic design, expressed through simple, elegant forms. These flowerpots are characterised by a smooth, uniform surface and a harmonious profile that gently widens towards the top, creating a soft, inviting silhouette. Their shapes are based on fundamental geometric forms – from a slender cylinder and a rounded cone to a low, wide bowl reminiscent of a hemisphere. Each form offers different design possibilities: the tall model is ideal for entrances and representative spaces; the medium one suits relaxation areas and home greenery; and the low version works beautifully with trailing plants and ornamental grasses.

GANE collection

GANE is a collection of contemporary planters featuring a rounded, gently elevated form set on a cylindrical base. Their elegant silhouette is defined by soft lines and a minimalist finish, inspired by traditional ceramic shapes. The matte, finely textured surface lends a natural appearance that complements a variety of interior and exterior design styles. Made from durable, weather-resistant material, Gane planters are well suited for both indoor and outdoor use – on terraces, balconies, or in garden settings.

CORO collection

The CORO pot series is a gallery of minimalist sculptures. Each form, from the oval to the rectangular, pays tribute to modern art. The ribbed structure resembles brush strokes or architectural lines. The flat finish of the edges makes the pots seem more raw, emphasising the sculpture-like feel of the shapes. In this collection, we combine art with functionality to create useful, designer-style forms.

CUBLA collection

The CULBA flowerpot collection harmoniously blends modern minimalism with visual lightness. Its cuboid form, featuring slender rims and gently rounded edges, gives the design an elegant and refined appearance.

Thanks to their lightweight construction, the flowerpots are exceptionally practical and easy to arrange – both indoors and on balconies. The matte, slightly textured surface highlights their contemporary character, bringing a sense of freshness and calm to the surroundings. CULBA enables the creation of complex, multi-level plant compositions that enrich the space with subtle dynamism and thoughtful aesthetics. It is a perfect choice for those who value simplicity, functionality, and elegant order in design.

CUBLA STEPA is a flowerpot with a distinctive stepped design that combines modern aesthetics with functionality. Its form is based on a composition of cuboid segments arranged to create a rhythmic, geometric whole. Each level provides a separate space for plants, allowing for structured yet dynamic greenery arrangements. Thanks to its compact proportions and lightweight construction, Cubla Stepa is well suited for both interiors and outdoor settings—such as terraces, balconies, or entrance areas. The matte, subtly rough surface lends it a natural, slightly raw character that integrates seamlessly into contemporary settings, from minimalist to industrial. It is an ideal choice for those seeking a flowerpot that serves not only a functional role, but also as a sculptural element.
