„Making the right and informed decisions - combined with production technologies and continuous innovation have led to Prosperplast's rapid growth.

We think forward and ahead of time, so we can develop the best products on the market.

With the growth of technology and continual evolution of consumer demands, our online presence had a makeover, so we can serve our B2B clients and help our B2C customers in a better online environment. Developing our new website we had three core objectives: to interest, inspire and educate. We can proudly say we have achieved all three goals and will continue growing our online platform to support our current and new customers on daily basis.

Our product offering is growing, so is our virtual world! Sign up to the Newsletter on our website to stay up to date with news from our Prosperplast world!"

425U S433 B411

The Sierra Square Beton Effect is a modern, square flowerpot with a distinctive texture that mimics concrete. This collection was designed with the capability to create layouts and separate areas, such as on terraces or balconies, thanks to a stacking system for the flowerpots. It is an ideal solution for decorating outdoor spaces like balconies and gardens, as well as larger indoor settings including restaurants, shops, and offices.

Sierra Case Beton Effect is a modern, elongated rectangular flowerpot with an internal partition dividing the space into two sections. Designed for creating arrangements and separating areas on terraces or balconies, this flowerpot features a stacking system. Perfect for outdoor and indoor decoration, it comes with internal liners for easy plant repotting and water drainage. Special wheels at the base facilitate the transportation of plants or the entire arrangement.

Easy module interconnectivity.

wall-mounting system

Milly Round is an elegant round flowerpot with vertical, rounded grooves that give it a unique character. It features a classic cylindrical shape with a visible cut in the narrower part at the base, creating a ring-like effect. Its timeless design and muted colors allow it to blend seamlessly into modern arrangements, adding a designer touch to interiors, gardens, or terraces.

The hanging version of Milly features a discreet wall-mounting system that ensures stability while remaining nearly invisible. This gives the pot a suspended, lightweight appearance, maintaining its clean form and decorative appeal in both indoor and outdoor settings.

S449 S433

A round flowerpot with a textured surface, reminiscent of hand-made woven products made from dried grasses.

The ornament on the surface of the flowerpot refers to the style of Far East design. An element that complements interior design and introduces an oriental character to any space.

new

bloma

Bloma is a set consisting of a long and spacious flowerpot in the form of a rounded box with a detachable pergola. The pergola is made up of five parts and connectors, creating a decorative support for climbing plants. Additionally, the set includes a brace for the planter, strengthening the structure. Bloma will work perfectly on the terrace, spacious balcony, or gazebo as a green separating wall. The planter is suitable for growing ornamental plants and vegetables such as peas, tomatoes, or cucumbers.

The pots have special recesses, allowing them to be arranged one on top of the other, creating an interesting tiered effect.

The series of Crown rail planter boxes is very easy to attach to the balcony thanks to the recess in its base and special brackets, which guarantee stability. Resistant to sunlight and mechanical damage. Adjustable to different railing types.

regular

Agro balcony case of a rectangular shape and subtle pressed markings on its surface is a universal product, perfect for the cultivation of various plants: flowers, herbs or vegetables. It may be mounted on balcony railings or placed on the floor or a window sill.

The Misa flowerpot resembles ceramic pots, a delicate ornament and a subtly textured surface adds to its elegance and grace.

The simple, timeless design makes it a perfect match for any garden or interior. The flowerpots are a perfect imitation of traditional clay products, but unlike them, they do not break easily. They create a perfect set.

A classic flowerpot shape with a delicately curled edge will work in any home décor, additionally decorated with a delicate ornament.

405U	S433			

wooden legs

A miniature, portable greenhouse or original box with legs made of hard, light-coloured wood. Equipped with a transparent lid with adjustable ventilation openings. A combination of functionality and timeless elegance.

plant herbs to enjoy
tally fresh each day!

The portable seedbed collection from the Respana collection is an important part of the gardening backyard and a perfect solution for growers who face difficult climatic conditions. This miniature greenhouse which, does not take up much space at home, creates the perfect conditions for the growth of the seedlings through good ventilation and humidity control. Cultivation of early vegetables, herbs or warm weather-loving plants sensitive to weather conditions - can be continued regardless of weather condition outside and bringing a great joy of early harvest. The light transparent lid provides adjustable ventilation holes in order to create an ideal micro-climate and prevent from overheating plants. What is more it protects the seedlings from annoying insects.

Bloomo is a portable, freestanding seedling nursery that provides ideal conditions for seedling growth. It features a detachable, transparent cover with adjustable ventilation openings and special safeguards to prevent accidental disassembly. There are openings in the cover to facilitate its transport. The nursery can be folded as it has removable legs.

Grow your gorgeous garden with absolute ease!

Botanic is a portable, freestanding seedling nursery that provides optimal growth conditions for seedlings. It features a transparent cover with adjustable ventilation openings and special locking mechanisms to prevent accidental disassembly. The cover is equipped with handles for easy lifting. This compact and lightweight greenhouse creates perfect microclimatic conditions, preventing plant scorching and shielding them from insects. An additional advantage is the ability to stack one product in another (stacking). Keep in mind that the greenhouse is not completely airtight, so it is not recommended to place it on a floor that may be exposed to moisture.

**HOME
GROWER**

Home Grower is a specialized planter designed for home cultivation of climbing vegetables, fruits, and ornamental plants requiring support. With the option to disassemble the supporting structure, enabling vertical growth and optimal utilization of cultivation space. It is a unique blend of functionality with thoughtful design; the planter not only fulfills its purpose but also presents itself beautifully. Home Grower is available in two sizes and three color variations, including the ECO Wood version. The product is made from material resistant to weather conditions and solar radiation.

Compatible with Tomato Grower Cap IPOC400.

SUPPORTS FLOO

Floo Supports: Sets of various elements such as stakes, spirals, rings, crossbars, and clips that serve as support for plants in their growth. They stand out for their versatility in application, suitable for different types of plants and various locations like gardens, balconies, or patios. Functional sets offer diverse configuration options, allowing for flexible adaptation to plant needs or overall floral composition. Plant supports are easy to assemble and disassemble, allowing for independent assembly and modifications to the structure at any time. Thanks to their wide and deep anchors, they can be easily driven into the ground, providing stability for the climbing plant structure.

quick-water system

Thanks to innovative Gikabe quick-water system you don't have to waste your time on filling a bucket or watering can in a traditional way. All you have to do is press the button in the tank and the watering can or bucket will fill with water immediately.

GARDEN CELLAR

A garden cellar as an additional space for storing food, maintaining a stable, relatively low temperature. The temperature conditions in the underground cellar make it possible to store preserves, fresh vegetables, as well as wines.

Thanks to this, the cellar provides us with measurable economic benefits, such as a significant reduction in electricity bills. It is a great alternative for additional storage space for homeowners without a basement or pantry. The assembly of the cellar is extremely simple and it takes about 5 hours to set it up. You need approx. 5m² of undeveloped space in your garden to install this modern dugout.

The material used in the production ensures high durability and resistance to moisture. Thanks to high tightness, it also prevents unwanted guests such as rodents from getting inside.

Gravity ventilation allows free air exchange and does not require any mechanisms to operate. Air exchange occurs under the influence of temperature differences.

Ovo

mm	mm	mm	mm
ROV	3570	2200	2600 7500,0

The cellar is environmentally friendly - it works without energy consumption.

regular collection

constant temperature regardless of the season

Through numerous functional shelves, the interior provides us with full comfort of use.
A specially dedicated wine shelf, which the cellar is equipped with, will allow you to store your favourite wines in ideal conditions.
An additional advantage is a place to store vegetables with the option of keeping them in the sand, which will significantly benefit their freshness and taste.

Round and square trays for garden umbrellas which, after filling with sand or water, guarantee the stability of your sun cover. A choice of rattan or wood texture.

helpful in arranging the garden space, separating different areas

JOIN THE NATURE regular collection

Palisade
 IPAK1 3827 115/12
 Total ~ 3,8m
 R222 405U

A pile wall consisting of a system of modules, enabling a line of flower beds to be created in any shape.

Palisade
 IPAK2 3834 115/12
 Total ~ 3,8m
 R222 405U

A pile wall which helps to separate the flower beds from the lawn or stone path. Its modular design and the shape of each element enables the creation of flower-bed contours.

Palisade
 IPAL6 3020 100
 Total ~3,02m
 R624 R222

The convenient module connection system allows you to mould its shape freely, while the lawnmower's wheels may travel on the special flange. Perfect for example for separating the lawn from flower beds.

Palisade
 IPAL7 4050 60
 Total ~ 4,05m
 R624 R222 S443

Palisade Border
 IPBO 2500 228/130
 Total ~ 2,5m
 R624 R222

Helpful in arranging the garden space, separating different areas. Thanks to the flexible modules and easy connections, they can be installed without tools.

Palisade
 IPALPLUS 2350 250/150
 Total ~ 2,4m
 R624 R222

A big advantage of palisade is their height which enables them to be used even in case of significantly raised terrain or particularly lush vegetation. Their structure resembles wood, which highlights the aesthetic appearance of the garden.

Palisade
 IPAL5 2700 240/155
 Total ~ 2,7m
 R624 R222 405U

Palisade is very useful especially in gardens situated on uneven ground. Its height allows it to be used even in case of significantly raised terrain or particularly lush vegetation. The structure of the pin prevents its breaking during mounting.

Garden Stone

IBST	3900	187
------	------	-----

422U S433

Garden Palisade that allows you to quickly divide the garden or set its boundaries. It also works well for marking out garden alleys or paths in the greenhouse. The subdued colours and stone-like structure perfectly match the vegetation, concrete accessories and other garden elements.

Garden Border

IBRA	3900	186,5
------	------	-------

Total ~ 3,9m

R624 R222 405U

Garden edging which enables the garden to be divided into designated areas. Very long, flexible modules with a texture imitating rattan braid.

Garden Border

IBWI	3900	186,5
------	------	-------

Total ~ 3,9m

R222 405U

Garden edging which enables the garden to be divided into designated areas. Very long, flexible modules with a texture imitating rattan braid.

Garden Fence

IKRR	5950	160
------	------	-----

Total ~ 5,9m

G851

Garden border is particularly easy to mount, and at the same time robust and durable. The product is resistant to mechanical damage and sunlight.

Garden Line

IKRA	10000	90
------	-------	----

Total ~ 10m

R222

The perfect solution for anybody who appreciates simplicity and convenience – can be dismantled and placed elsewhere at any time without the risk of damaging plants.

Garden Classic

IPLSU	3220	350
-------	------	-----

Total ~ 3,2m

S449 R624 R222

Garden fence is an universal and popular product. It provides robust fencing with simple mounting. The „CLICK“ system allows you to connect individual elements easily.

Garden Classic

IPLSU2	3600	520
--------	------	-----

Total ~ 3,5m

S449 R624 R222

The „CLICK“ system allows you to connect individual elements easily.

Drab

IDR1	160	380
IDR2	183	500
IDR3	185	560
IDR4	200	670

R222 S433

The „Drab“ flower stand will support flimsy, fragile plants.

new Base Plant

Base Plant is a range of lightweight and functional mini garden beds designed for simple and visually appealing plant cultivation in a variety of outdoor spaces. Made from durable composite material resistant to mechanical damage, UV rays, and changing weather conditions, these beds offer long-lasting performance in open-air environments.

Base Plant mini beds are easy to assemble, requiring no tools, and their modular design allows for flexible configuration to suit different layouts and user preferences. Individual modules can be joined together to form larger, well-organized planting areas that enhance both function and appearance.

The range includes four variants: rectangular and square mini beds available as single units or in double sets, enabling users to arrange planting spaces freely in gardens, on terraces, or in urban green zones.

new
quick
and easy
installation

Compostbox is a compact and easy-to-assemble compost bin composed of modules that can be put together quickly without the need for tools. The top module features a large opening for depositing organic waste, closed with a cover secured by a special padlock included in the set. This feature ensures that the compost bin is protected from accidental opening by wind or animals. The bottom module contains two slides for convenient removal of compost. All modules feature numerous holes providing proper airflow and enabling moisture for effective decomposition of organic matter. The lower part of the compost bin is stabilized on the ground with 4 pegs. The pegs and padlock are attached to the underside of the cover during sale.
